

### **Dr SHARRON PFUELLER**

Sharron Pfueller is a senior lecturer in the School of Geography and Environmental Science at Monash University. She holds a BSc(Hons) (University of Sydney) and a PhD from the University of Adelaide. She has held research positions at the Universities of Sydney and Bern, Switzerland. Her current research addresses aspects of the human dimensions of natural resource management. Projects explore the role of place attachment in conservation, multistakeholder processes associated with environmental management and, in particular, partnerships between natural resource managers, the community and the tourism industry.

### **Dr XUAN ZHU**

Xuan Zhu is a senior lecturer in the School of Geography and Environmental Science, Monash University. He received an MSc in Cartography and Remote Sensing (Nanjing University) and a PhD in GIS (University of Edinburgh). He has held research and academic positions at CSIRO; National Institute of Education, Nanyang Technological University, Singapore; University College Cork, Ireland; and Nanjing University, China. He has been involved in the development of the Loess Plateau Information System for Sanchuan River Basin in China, the Islay Land Use Decision Support System, the Irish Wave Energy Information System, and natural resource management decision support systems in Australia.
